

## Catalog 6013 New Drive Size Designations For Sockets and Socket Accessories

Catalog 6013 contains a significant change in designation for all products listed in this section, 4-C, Sockets & Accessories. In an effort to simplify and standardize our part numbers, we have implemented the use of the following prefixes throughout this section:

**A = 1/4" Drive**  
**B = 3/8" Drive**  
**C = 1/2" Drive**  
**D = 3/4" Drive**

**E = 1" Drive**  
**F = 1 1/2" Drive**  
**G = 2 1/2" Drive**

By including these prefix letters along with the working diameter of the given parts, you will be better able to identify and order exactly what drive and size you are looking for. Thank you for your patience with the transition.

### **SOCKETS # 3124-6 Standard Depth, 6 Point**

Chrome Vanadium Steel - Chrome Plated
